

One of the benefits of being a BAUN Member is the reduced rates for attending the BAUN Conference and Workshops. By joining as a member and then registering at the member's rate, the cost of both these together is cheaper than registering as a non-member.

However, for 2020 e-conference we are offering a full year's membership as part of your conference fees, if you are not currently a BAUN Member.

Why become a BAUN Member?

The association, which was founded in 1995, aims to promote and maintain high standards in the practice and development of urological nursing. The BAUN Council consists of 15 members to include representation from England, Scotland, Ireland and Wales. The Executive Officers of the association are President, Secretary and Treasurer. The President's post is held for a period of three years and council members are elected for a period of three years. Council members may stand for a second term of office.

With the ongoing development of the role of the urology nurse/practitioner the association recognises the need to put into place opportunities for professional development. This includes participation in project teams and the production of standards documents on a wide range of urology issues. There is also a newsletter publication, issued five times per year, aimed at keeping members updated on important urology information.

The membership of the association represents a significant proportion of nurses working within urology. As a member you will have the opportunity to participate in BAUN and contribute to its development with access to professional advice on matters relating to all aspects of urology together with a wide network of contacts working in the same or a related field.

Full Member

NMC Registered nurse with an interest in urology
£55.00

Associate Member

Any healthcare professional with an interest in urology who is not registered with the NMC
£55.00
